

The Octo, a powerful computer, quiet, ultra-compact and especially multi-business.

Ideal for workstations, point-of-sale applications, meeting rooms and digital signage.

Equipped with the latest technologies in microprocessors, memories and SSD storage, the Octo is a great computer with outstanding performance for office, management, financial and multimedia applications.

## ✓ INSTALLATION & OPTION

### VESA SUPPORT

Compatible with VESA, the Octo can be easily installed at the back of a screen.

And if you already use the VESA mounting holes, such as, for example, with a screen with adjustable feet... nothing could be more simple than with the VESA support extension option.

### CUSTOMIZATION OPTION

Be different !

Thanks to our customization option, you can print your Kubb with your logo.

The Octo becomes an unique and corporate computer.
