

The Secure Endpoint OS Platform for Now & Next

Power Your Workspace with OS 12

IGEL is a transformative secure endpoint OS platform designed for SaaS, DaaS, VDI and secure browser environments. IGEL OS 12 offers a lightweight, immutable, and modular architecture. Combined with IGEL UMS for centralized control, the platform bolsters your security posture with the Preventative Security Model™ eliminating common attack vectors.

IGEL OS 12 integrates seamlessly with modern security ecosystems and reduces IT stack bloat and operational expenses by delivering an adaptive secure desktop.

Here's some top reasons why:

App-centric and Modular

- Apps independent of OS
- App Portal with self-service
- Greater simplicity
- Reduced attack vector
- Easy BYO apps
- Less support tickets
- IT gains time for strategic goals

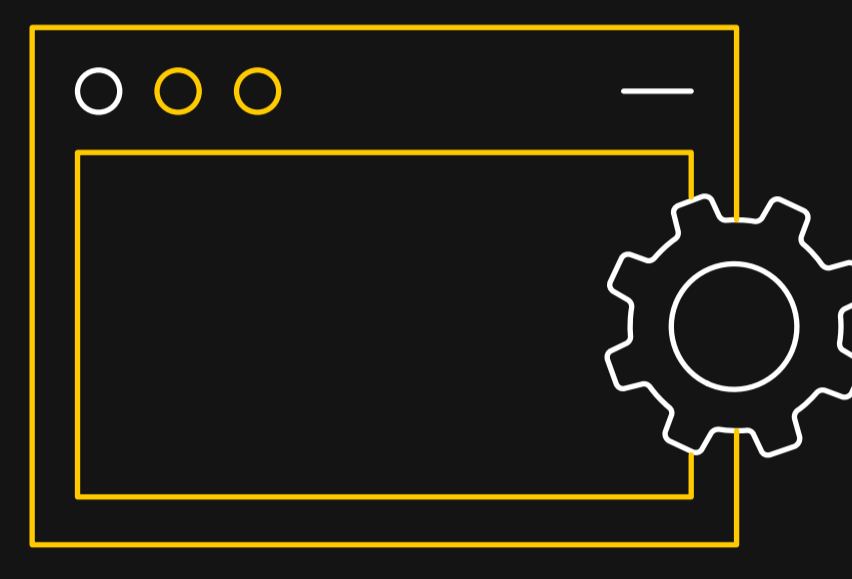

Modern Architecture

- Faster and more secure
- Linux Kernel 6.6.22
- TLS 1.3 Support
- Live patching and app isolation
- Cloud-native with microservices

IGEL Ready Ecosystem

- More vendor integrations
- Latest hardware
- Broader peripheral support
- SaaS, ZTNA, SASE/SSE, and more

Improved Management

- UMS Web console is primary
- Easy, intuitive control from a browser
- REST APIs for automation and integration
- More granular profile and app setting console

Managed Hypervisor

- Run Windows directly on IGEL OS
- Embrace legacy OSES more securely
- Manage hundreds or thousands of VMs
- Streamlined management and remediation
- Aligns to OT/IoT use cases

Business Continuity

- Helps ensure uptime through security incidents
- IGEL Dual Boot™ on existing Windows devices
- IGEL USB Boot on x86/x64 hardware
- IGEL Services included to customize and test

User Experience

- Onboarding service gets users running quickly
- Updated visual elements
- Enhanced graphics and monitor support
- Improved multimedia and collaboration performance
- Faster app and desktop launch times

Compliance and Certifications

- ✓ NIS2
- ✓ CER
- ✓ KRITIS
- ✓ GDPR
- ✓ ISO 27001

Moving from traditional VDI to Azure Virtual Desktop was a major transformation for us and IGEL OS 12 was critical to the project's success.

Ryan Kramer, Technology Team Lead in Healthcare

Only IGEL delivers this level of value to your organization's endpoint strategy.
